

Reaper Genesis Series

Genesis NFT: Reaper Foundry Utility & Whitelist Paper

Introduction

The Genesis NFT: Reaper Foundry represents the foundational NFT collection of the Reaper ecosystem. Designed as permanent ecosystem access identifiers, these NFTs provide holders with structured advantages across the core infrastructure being developed within the Reaper network.

Genesis holders receive tier-based privileges across three primary ecosystem layers:

- The Reaper NFT Launchpad
- The Reaper Marketplace
- The Reaper Incubator

These advantages are designed to reward early supporters while maintaining the operational sustainability and profitability of the wider Reaper ecosystem. The Genesis collection establishes the first layer of participation within the Reaper network and provides long-term ecosystem privileges as the platform expands.

Genesis Collection Overview

Total Supply: 300 NFTs

The Genesis collection is divided into four tiers, each visually identifiable by its frame design and representing increasing levels of ecosystem access.

- Tier 1 — Molten Frame
- Tier 2 — Silver Frame
- Tier 3 — Chilli & Flower Frame
- Tier 4 — Gold Frame

Higher tiers receive earlier access, expanded advantages, and deeper integration within the Reaper ecosystem.

Role of Genesis NFTs Within the Ecosystem

Genesis NFTs function as ecosystem access passes that integrate across the core infrastructure of the Reaper network.

These include:

- Participation in NFT launchpad mints and whitelist allocations
- Marketplace trading advantages and promotional opportunities
- Visibility and participation within the incubator
- Governance discussion participation
- Ecosystem campaigns and reward incentives

Genesis holders represent the early supporters and builders helping establish the Reaper ecosystem as it expands.

Reaper NFT Launchpad

The Reaper Launchpad enables external projects to create, mint, and launch NFT collections through the Reaper ecosystem.

Genesis holders receive structured advantages on supported launches, including early mint access and participation in whitelist allocation pools.

Launchpad benefits may include:

- Early mint access windows before public mint phases
- Tier-based mint discounts
- Participation in Genesis whitelist allocation pools

Projects launching on the Reaper Launchpad may allocate a portion of their NFT supply to Genesis holders.

Typical allocation range: 3% – 10% of total NFT supply.

Participation in the Genesis whitelist system remains optional for launchpad projects.

Reaper Marketplace

The Reaper Marketplace is a multi-utility platform designed to support NFT trading, token launches, Web3 job listings, staking systems, promotions, contests, and marketing infrastructure for projects.

Genesis holders receive tier-based benefits including trading fee reductions, promotional placement opportunities, and early access to marketplace tools and features.

These advantages are structured to increase participation while maintaining the long-term sustainability of the platform.

Reaper Incubator

The Reaper Incubator supports early-stage Web3 projects building within the ecosystem.

Genesis holders gain visibility and participation opportunities depending on their tier.

Privileges may include:

- Early visibility into incubated projects
- Access to project development updates
- Community feedback opportunities
- Early whitelist opportunities from incubated projects
- Strategic collaboration opportunities for higher tiers

Participation opportunities remain dependent on the preferences and structures of incubated projects.

Genesis Tier Privileges

Molten Frame — Tier I

Foundry Supporters

Molten Frame holders represent the foundation of the Genesis collection and receive core ecosystem privileges.

NFT Launchpad Benefits

Early mint access window for participating launches

Mint discount of approximately 5% on supported launchpad projects

Access to Genesis whitelist allocation pools where enabled

Marketplace Benefits

Marketplace trading fee reduction of 5% from standard platform fees

Priority listing placement for NFT sales

Access to Genesis promotional channels for project visibility

Marketplace Promotion

Access to shared promotional spots within the Genesis project spotlight section when available

Incubator Access

Observer access to incubator updates and project development logs

Eligibility for incubator community participation opportunities

Additional Privileges

Genesis Foundry role across the Reaper ecosystem

Access to Genesis events, campaigns, and ecosystem activities

(refer to chart for listing of all benefits)

Silver Frame — Tier II

Forge Vanguard

Silver tier holders receive stronger access privileges and expanded ecosystem participation.

NFT Launchpad Benefits

Extended early mint access window before public launches

Mint discount of approximately 7–10% on supported projects
Guaranteed eligibility for Genesis whitelist allocation pools

Marketplace Benefits

Marketplace trading fee reduction of 10% from standard platform fees
Priority listing placement for NFT sales and collections
Early access to new marketplace features and tools

Marketplace Promotion

Access to periodic promotional placements in marketplace discovery sections
Reduced promotional feature costs when advertising collections or projects

Incubator Access

Early previews of incubated projects
Access to incubator announcements before public release
Eligibility for whitelist opportunities from incubated projects

Additional Privileges

Forge Vanguard ecosystem role
Participation in Genesis governance discussion channels

(refer to chart for listing of all benefits)

Chilli & Flower Frame — Tier III

Infernal Architects

This tier is designed for serious ecosystem participants, builders, and creators.

NFT Launchpad Benefits

Priority mint access for supported launchpad projects
Mint discount of approximately 10–15% on participating launches
Reduced NFT launch fees (up to 20%) when launching personal projects on the Reaper Launchpad
Priority launch scheduling compared to lower tiers

Marketplace Benefits

Marketplace trading fee reduction of 15% from standard platform fees
Priority listing placement and advanced listing options
Access to enhanced marketplace creator tools

Marketplace Promotion

Discounted access to premium promotion placements, banners, and project spotlight campaigns

Priority eligibility for promotional campaigns within the marketplace

Incubator Access

Participation in incubator feedback sessions

Direct interaction with incubated project teams during development phases

Eligibility for early community testing and engagement roles

Additional Privileges

Infernal Architect ecosystem role

Increased reward weighting within ecosystem campaigns and incentive programs

(refer to chart for listing of all benefits)

Gold Frame — Tier IV

Reaper Sovereigns

Gold tier represents the highest level of Genesis participation and long-term ecosystem influence.

NFT Launchpad Benefits

Maximum priority mint access for supported launches

Mint discount of up to 20% on participating projects

Preferred scheduling and premium placement for launching personal NFT projects

Launch strategy support and visibility advantages

Marketplace Benefits

Maximum marketplace trading fee reduction tier of 20%

Premium listing placement across marketplace discovery sections

Early access to advanced marketplace infrastructure such as token launch tools and staking systems

Up to 40% discount on selected marketplace features and services, determined periodically by the Reaper Core Team and subject to governance agreement

Marketplace Promotion

Access to premium promotional placements, including featured banners and highlighted listings

Priority promotion access during major ecosystem campaigns and launches

Incubator Access

Strategic visibility into incubated projects

Participation in early project strategy discussions where applicable

Eligibility for partnership and ecosystem collaboration opportunities

Additional Privileges

Reaper Sovereign ecosystem role

Participation in Genesis council discussions regarding ecosystem direction

Ecosystem Reward Multipliers

Genesis NFTs also provide reward multipliers within ecosystem incentive systems.

Molten Frame — 1.05x

Silver Frame — 1.1x

Chilli & Flower Frame — 1.2x

Gold Frame — 1.35x

Multipliers may apply to staking rewards, ecosystem campaigns, community incentives, and promotional reward programs.

Governance Participation

Genesis holders gain access to governance discussion channels regarding the development of the Reaper ecosystem.

These discussions may include feedback on:

- Platform feature development
- Launchpad standards
- Marketplace infrastructure
- Ecosystem expansion initiatives

Governance participation is advisory in nature and designed to collect community input from early ecosystem participants.

Long-Term Vision

The Reaper Foundry Genesis Series establishes the first layer of participation within the Reaper ecosystem.

As the Reaper infrastructure expands through the development of the NFT Launchpad, Marketplace, Incubator, and future ecosystem components, Genesis holders will remain integrated across these systems as recognized early contributors to the network's growth.

Genesis NFTs are designed as permanent ecosystem identifiers representing early support and ongoing participation in the Reaper network.

Closing Statement

The Reaper Foundry Genesis collection represents the beginning of the Reaper ecosystem's infrastructure layer. These NFTs recognize the earliest supporters helping establish the network while providing meaningful advantages across the expanding Reaper platform.

As the ecosystem grows, Genesis holders remain positioned within the core layers of participation, innovation, and community development that shape the future of the Reaper network.

The Foundry is where the ecosystem begins.

Disclaimer

The utilities, privileges, and advantages described within this document outline the current structure of the Genesis NFT: Reaper Foundry collection. As the Reaper ecosystem evolves, these utilities may expand, be refined, or be adjusted to support the long-term sustainability and growth of the platform.

Discount levels, feature access, and ecosystem advantages may evolve over time depending on the performance and development of the Reaper ecosystem. Any significant adjustments will be communicated through official Reaper channels.

Access to certain benefits — including NFT mint discounts, whitelist allocations, and early mint opportunities — depends on external projects choosing to participate in the Genesis

participation program when launching through the Reaper NFT Launchpad or engaging with the wider ecosystem. Participation in this program remains optional for partner projects.

Marketplace feature discounts, promotional placements, and platform benefits are subject to feature availability and may vary depending on marketplace rollout stages, system updates, and platform development phases.

Incubator-related opportunities, early access privileges, or potential project allocations depend entirely on the structure and participation preferences of incubated teams. Genesis ownership does not guarantee token allocations, investment opportunities, or financial returns from incubated projects.

Governance discussions involving Genesis holders are advisory in nature and do not represent binding protocol governance unless explicitly defined in future governance frameworks.

Genesis NFTs function as ecosystem access identifiers designed to provide participation advantages within the Reaper infrastructure. They do not represent equity, ownership rights, or financial securities within the Reaper project.

The Reaper team reserves the right to refine ecosystem mechanics, platform features, and utility structures when necessary to protect the health, security, and long-term sustainability of the Reaper ecosystem.

Category	Molten Frame (Tier 1)	Silver Frame (Tier 2)	Chilli Flower Frame (Tier 3)	Gold Frame (Tier 4)
Status Level	Foundry Supporter	Forge Vanguard	Infernal Architect	Reaper Sovereign
Nft Launchpad Early Access	Early mint window	Extended early mint window	Priority mint access	Maximum priority mint access
Mint Discounts	Upto 5% discount	7-10% discount	10-15% discount	Upto 20% discount
Whitelist Access	Access to Genesis allocation pool	Guaranteed eligibility for whitelist spots	Priority whitelist spots	Maximum whitelist priority
Launch your own nft project	Standard access	Reduced launch fees	Priority scheduling + upto 20% launch fee reduction	Premium launch placement + strategic support + 20% launch fee reduction
Marketplace trading fees	5% reduction	10% reduction	15% reduction	20% reduction
Marketplace Promotion	Genesis spotlight exposure	Periodic promotion placement	Discounted premium promotions	Premium promotion placements
Marketplace Tools / Features	Early visibility to features + 5% Discount	Early testing access + 10% discount	Priority access/ advanced tools + 10-15% discount	Early access to major platform features + upto 40% discount on selected features
Token Creation / Launch tools	Standard access	Early access	Priority access / some promotional advantages	Priority access with promotional advantages
Incubator Access	Observer access to project updates	Early incubator previews	Participation in feedback sessions	Strategic incubator visibility
Governance participation	Community Discussion access	Genesis Governance channels	Advisory participation	Genesis council discussions
Partner Rewards / Airdrops	Occasional partner drops	Priority partner rewards	Increased reward allocation	Premium partner allocations
